Subject: FW: Interview

Hi Liz,

In a meeting with the Hunters Point team today, we realized that since the issue of EPA's radiation cleanup standards covers some technical ground, we'd like to start by sending you a written explanation of our work. Then if any technical questions come up for you, we can address those with you in follow-up.

We should have the written response to you later this week.

Thank you,
Michele

Subject: Interview

Hi Michele,

Checking in with you regarding the interview. Can you please let us know what time Wednesday before 1p works for Lily Lee? We are also available any time on Thursday. Please call me today to discuss: 408-483-2084.

Thanks,

Liz
